

Marine & Industrial Transmissions Ltd

Statement of intent regarding the Environment

Marine & Industrial Transmissions Ltd is a marine and industrial related enterprise operating in the UK and Ireland. All company policies apply to all employees.

Our Company recognises the importance of environmental considerations and will take these into account at all stages of business planning, development, production, servicing and marketing whilst continuing to distribute high quality products to our customers' specifications and satisfaction.

We are committed to the policy of continuous environmental improvement.

In particular we are committed to leading the industry in minimising the impact of our activities on the environment.

- Conservation of energy.
- Conservation of natural resources used in our production and machinery operations, particularly in the use of packaging by recycling any packaging materials where possible
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Reduction in the use of solvents in the workplace and emission into the atmosphere, by buying solvent free products where possible
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Provision of safe, clean and hygienic working conditions.
- Reduction of noise levels to the lowest levels practicable for employees and our neighbours.
- Safe storage and disposal of waste to meet "Duty of care" responsibilities.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
