Variable Speed Drive Repair and preventative maintenance

Optimising the performance of your inverter drive

AS AN OFFICIAL SERVICE PARTNER FOR DANFOSS DRIVES AND THE MARINE INDUSTRY SPECIALIST, MIT HAS THE AFTERMARKET EXPERTISE TO KEEP YOUR BUSINESS OPERATIONAL AND YOUR DOWNTIME TO A MINIMUM.

Our highly skilled engineers offer onsite audit and surveying of all your AC drives to ensure they are in optimal condition, reducing the need for reactive maintenance and repairs and improving your drive's reliability.

WHAT WE OFFER

- Onsite inverter drive assessment
- Survey and condition reporting
- Preventative maintenance plans to optimise your drives
- Upgrade or retrofit your inverter drives
- DrivePro maintenance contracts
- 12 months warranty as standard
- Genuine OEM spares
- Extended factory warranty

WE ARE MANUFACTURER AGNOSTIC, MEANING WE CAN WORK ON ANY MODEL OF INVERTER DRIVE

As an inverter drive expert, we offer maintenance, repair and servicing for Danfoss VLT and VACON, as well as on other makes of AC drives. We can provide surveying, condition reporting and customised preventative maintenance for your vessels or fleets. Following our onsite audit, we offer a comprehensive health report for each drive, including recommended maintenance planning, budget and quotation.

All our engineers are factory trained to the highest standards and use genuine OEM parts, so you can be sure that all components are 100% compatible and durable and offer the best protection for your equipment. All our service recommendations are customised to your business and will improve your drive's productivity and performance.

GLOBAL SUPPORT

We endeavour to keep your downtime to a minimum. So whatever your situation, our specialists can get your vessel back on the water quickly.

From preventative maintenance to onsite emergency support, our engineers are equipped with tooling and spare parts that enable them to repair your vessels wherever your location.

YOUR INVERTER DRIVE SERVICE PARTNER
